Co-branded credit cards aren't the only way to earn reward points for many of these hotel rewards programs. Many cards, such as the Chase Ultimate Rewards line and the Amex Membership Rewards line, can earn points that are transferred to the hotel's reward account. Ask yourself these questions to find out which hotel rewards program is right for you. Do you have a primary hotel? Fortunately, few hotel rewards programs should be completely bypassed, so consider your hotel preferences when making your choice. What is hotel coverage? If you travel frequently on business, make sure the hotel brand offers enough global reach to take advantage of the rewards program. How often do you travel and how much do you spend? Some hotel rewards programs only really start paying if you can get up through their elite status. In hotel programs that do not have a shortcut to elite status through a co-branded card, getting adequate status can require a large amount of hotel accommodation. What are the additional benefits? In addition to the point value, it is worth considering whether the additional benefits of registration and sticking to the programme are worth the commitment. For some programs, the greatest value comes from these benefits. What kind of credit card do you want? Even if you don't need a credit card to sign up for the hotel's rewards program, the card can help you get the most out of the program. While co-branded cards are often a great choice for clean point wins, cards that can switch to a hotel program can also be good choices as they tend to have the widest categories of driving. When choosing the best hotel rewards programs, we looked at different factors for each category. These include how easy it is to elite status, benefits offered through elite levels, how many points you need on reward night, total value of points, total value, hotel coverage, how much you need to spend to find value and other aspects that the consumer can view when choosing a hotel program. Those hotel award programs that were above others in a particular category or filled a certain ni file were selected to highlight in this year's Best list. Booking a hotel without a credit card can cause you to lose a few benefits that make your stay more comfortable – or cheaper. Some of the most common hotel perks associated with hotel credit cards are: Free reward nightsConcierge servicesElite statusDiscounts is the value of eligible staysTravel insuranceGive's elite status in many of the hotel's loyalty programs, it's wise to check cards that offer free silver space or gold status if you're a frequent traveler. Provided you stay in a hotel that you enjoy and use regularly, you can't make the wrong choice when choosing a hotel rewards program. However, if you want to make the most of your loyalty programs, try choosing a card based on the strengths described above. Do hotel rewards programs pay to join? Not. Most hotel reward programs are free to join. How many points do I need to book a hotel? How many points you need to book a free night at the hotel depends on the brand of the hotel. Can I use the hotel's reward points for prizes other than hotel nights? Yes. However, points redeemed in this way tend to be less valuable than if you had redeemed them on reward nights.
